Buena Vista, VA

EXPERIENCE

Student Assistant - Data Team

Aug 2025 - Present

BYU Marriott School of Business, Business Career Center

Provo, UT

- Designed and rebuilt 5+ student-facing and employer-facing sites in Brightspot CMS, delivering cohesive, user-centered experiences that increased clarity and engagement
- Partnered with Career Directors to restructure major-specific webpages, aligning site content with student needs and clarifying career pathways
- Resolved 30+ recurring technical issues for staff and students, ensuring 99% uptime and reliable access to career resources

Teacher's Assistant - IS 403 (Programming Business Systems)

Aug 2025 - Dec 2025

BYU Marriott School of Business

Provo, UT

- Graded 60+ programming assignments weekly with accuracy and timeliness, reinforcing student understanding of algorithms, data structures, and real-world programming patterns
- Held 10+ weekly TA hours to mentor students in debugging, problem-solving, and tutoring sessions, building confidence in JavaScript and VS Code

Information Systems Career Specialist

May 2024 - Aug 2025

BYU Marriott School of Business

Provo, UT

- Improved the Business Career Center IS website using Brightspot CMS, increasing visibility and usability of career events and resources for 1,000+ students
- Redesigned BYU Career Launch site using Figma and Brightspot CMS, streamlining job-prep content and earning Assistant Dean approval to deploy
- Mentored 100+ students on LinkedIn and Handshake, expanding their access to internships and supporting the IS program's 100% placement goal

Volunteer Representative

Jun 2020 - Dec 2021

The Church of Jesus Christ of Latter-day Saints

Syracuse, NY

- Created and managed Facebook and Instagram campaigns that increased engagement and contact rates by 40%, while training 200+ missionaries in digital proselyting and data-driven outreach strategies to sustain mission success during COVID
- Supervised 6–20 volunteers, coordinating trainings and leading community service initiatives to strengthen local outreach and impact

PROJECTS

AI's Windows - Business Website Developer

May 2025 - Present

- Designed and deployed a full-stack window-washing business website on AWS using JavaScript and PostgreSQL, enabling online service requests
- Implemented CRUD functionality, CI/CD pipeline, and GitHub automation, ensuring real-time data management, reliable updates, and minimal downtime
- Secured the platform with HTTPS, admin authentication, and access controls, protecting client and business data while improving customer trust

SKILLS & ACHIEVEMENTS

- Proficient in Python, Brightspot CMS, HTML/CSS, Javascript (React, Node.js), Excel, & MySQL
- Experienced in C++, C#, PostgreSQL, Full-Stack Development, Tableau, Database Design, ASP.net, & VBA
- I enjoy baking for people, playing pickleball, and exploring new places, which helps me stay curious and show up with a positive, people-first mindset
